

BLACK JACK

PAYOUT:

Black Jack! --- 2 X Bet (BET 1 CHIP GET 2 CHIPS)

(MINIMUM BET 5 CHIPS; NO MAX)

Objective:

Attempt to beat the dealer by getting as close to 21 as possible without going over

Rules:

-Place bet before dealing begins. **All chip colors same denomination**

-Dealer will give each player one card facing up then himself one card facing down

-A second round of dealing, all cards face up, including dealer's

-If anyone has Black Jack, dealer pays that player(s). HOWEVER, if dealer's card facing up is an ace or Face, dealer can look at card faced down to see if he has black jack as well. If so, player has tied the dealer and player gets chips back.

*If dealer has Black Jack, he collects all bets from players that do not have Black Jack

*Ace can be counted as 1 or 11; but dealer must play ace as 11 if it puts his hand at 17 or above

-Each player can "hit" or "stand"

Hit- Gets another card to try and get closer to 21

Stand- stays with the hand they have

-Dealer must stand if cards are = or greater than 17; or must take cards until hand is at least 17

-Dealer must hit on soft 16

-If dealer goes over 21, he pays each player who has stood for that hand

-If dealer stands at 21 or less, he pays players who have a higher total and collects the bet of anyone with a lower total than himself
